

We will build on our strong record on animal welfare – starting with an end to the Government's ineffective and cruel badger cull. We will improve the protection of dogs and cats, ban wild animals in circuses, defend the hunting ban and deal with wildlife crime associated with shooting.

We want to create a world-leading Food, Farm and Fisheries sector that creates better paid jobs and apprenticeships across the rural economy. We will put in place a long-term strategy for the sector, promote the best of British produce, and expand the role of the supermarket watchdog to support the growth of the sector, and protect food producers from unfair practices by the major supermarkets.
