# Britain in the world

---

## Global action for security and prosperity

---

In a more globalised, interdependent world, freedom for individuals is not best protected solely by the nation state. Corporations, banks and markets now operate across the globe with little respect for national borders. Climate change, one of the greatest challenges of our age, is by its nature global. And criminals, hackers and terrorists now operate across borders, too. It is in the interests of all countries to create a system of international law and governance, both treaty-based and multilateral, at the global level. We will ensure Britain actively and constructively works with our allies and partners in the European Union, Commonwealth, UN and NATO to engage with and develop policy responses when liberal internationalism and the rules-based system are challenged.
